collezione inversa

PER ALTRE PROSPETTIVE

INVERSA È LA PORTA STUDIATA PER CHI RICHIEDE UNA SOLUZIONE DI APERTURA **A SPINGERE O A TIRARE** CON LA PIENA COMPLANARITÀ SUL LATO CORRIDOIO. DI GRANDE VALENZA ESTETICA, QUANDO È CHIUSA, RIMANE PERFETTAMENTE A FILO DELLA PARETE. E, GRAZIE ALLA SUA PARTICOLARE FILOSOFIA COSTRUTTIVA, RIDUCE ANCHE GLI INGOMBRI COMPLESSIVI.

“INVERSA” COLLECTION: FOR OTHER PERSPECTIVES

Inversa is designed for those who need to open a door by pushing, in full co-planarity toward the corridor. It is aesthetically pleasing and, when closing, it perfectly aligns to the wall. Thanks to its particular engineering method, it reduces the space needed.

COLLECTION INVERSA: POUR D'AUTRES PERSPECTIVES

Inversa est la porte étudiée pour ceux qui nécessitent un sens d'ouverture poussant, avec une coplanarité totale côté couloir. Offrant un bel aspect esthétique, quand elle est fermée, elle reste parfaitement à fleur du mur. Et, grâce à la philosophie avec laquelle elle a été conçue, elle réduit également les espaces d'encombrement.

КОЛЛЕКЦИЯ INVERSA: ДЛЯ ДРУГИХ ПЕРСПЕКТИВ

Inversa - это дверь, разработанная для тех, кому необходимо открытие от себя с полной одноплоскостностью со стороны коридора. Обладая великолепной эстетикой в закрытом положении, дверь находится на одном уровне со стеной. А благодаря особенностям конструкции снижаются общие габаритные размеры.

INCASTRO COPRIFILO/ STIPITE A PETTINE BREVETTO PIVATO

Finger-joint snap-fitting between casing and jamb, Pivato patented

Assemblage couvre-joint/chambranle à entures multiples, breveté Pivato

Шиповой стык наличник-косяк, патент Pivato

INGOMBRO RIDOTTO DELL' ANTA

Reduced space needed for door leaf

Encombrement réduit du vantail

Уменьшенный габаритный размер полотна

2

CERNIERE A SCOMPARSA REGISTABILI IN GRIGIO ALLUMINIO CON LA COVER DELLO STESSO COLORE DELL' ANTA (DI SERIE)

Grey aluminium hidden hinges with cover of the same colour of the leaf (standard)

Charnières escamotables réglables en gris aluminium avec le cache de la même couleur que le vantail (de série)

Убирающиеся регулируемые петли серо-алюминиевого цвета с накладкой в цвет створки (серийное исполнение)

Vedi colori Mazzetta Pivato / See colours in Pivato palette
Voir coloris nuancier Pivato / См. образцы цвета Pivato

3

SPESSORE ANTA 56 MM

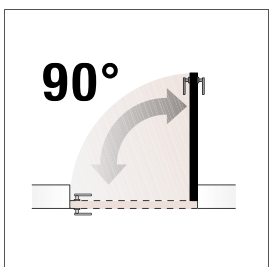

Door leaf thickness: 56 mm.

Épaisseur du vantail 56 mm.

Толщина полотна 56 мм.

4

APERTURA A 90° A SPINGERE

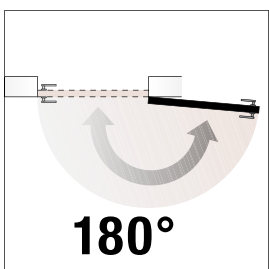

90° opening (push)

Ouverture à 90° à pousser

Угол открытия 90° внутрь

APERTURA A 180° A TIRARE

180° opening (pull)

Ouverture à 180° à tirer

Угол открытия 180° наружу

cambia il concetto di apertura

La particolarità di Inversa è la piena complanarità tra anta e coprifilo in vista esterno ambiente. Per una piena continuità tra parete e porta è stato necessario capovolgere il concetto di apertura.

THE OPENING CONCEPT HAS CHANGED

The distinctive trait of Inversa is its perfect co-planarity between door leaf and casing, corridor side (priority view). To get a complete continuity between the wall and the door, we had to overturn the opening concept.

CHANGEMENT DU CONCEPT D'OUVERTURE

La particularité d'Inversa est la coplanarité totale entre la porte et le couvre-joint côté couloir (vue principale). Pour obtenir une parfaite continuité entre le mur et la porte, il a donc été nécessaire de révolutionner le concept d'ouverture.

МЕНЯЕТСЯ КОНЦЕПЦИЯ ОТКРЫТИЯ

Особенностью Inversa является полное совпадение плоскости полотна и наличника со стороны коридора (основной вид). Для достижения полной непрерывности плоскости стены и двери было необходимо перевернуть концепцию открытия.

ДВЕРЬ, ОТКРЫВАЮЩАЯСЯ НАРУЖУ

E ORA GUARDIAMOLA DALL'INTERNO DELLA STANZA

Per rispettare l'effetto di continuità di Inversa in vista esterno ambiente, bisogna prevedere una posa del pavimento diversa rispetto ad una porta tradizionale, come spiegano la foto ed i disegni qui sotto.

LET'S HAVE A LOOK FROM INSIDE THE ROOM

To respect the form simplicity of Inversa on the corridor side, you have to lay down the floor in a different way than a common door, as clarified in the underlying picture and drawings.

REGARDONS MAINTENANT DE L'AUTRE CÔTÉ, À L'INTÉRIEUR DE PIÈCE

Pour respecter la continuité d'Inversa côté couloir, le revêtement de sol devra être posé de façon différente par rapport à une porte traditionnelle, comme le décrivent la photo et les dessins ci-dessous.

А ТЕПЕРЬ ПОСМОТРИМ НА НЕЕ ИЗНУТРИ КОМНАТЫ

Чтобы сохранить эффект непрерывности Inversa со стороны коридора, необходимо предусмотреть укладку пола, отличающуюся от укладки при использовании обычных дверей, как показано в фотографии и на рисунке ниже.
